ABOUT ME

Urban & Regional Planning postgraduate with an architectural background and professional experience in infrastructure planning, spatial analysis, feasibility assessment, and development planning. Skilled in analysing spatial, demographic, economic, land-use, and infrastructure data to support investment decisions and development strategies. Proficient in GIS-based analysis, market and location assessment, infrastructure demand analysis, technical reporting, and multidisciplinary coordination. Seeking opportunities in strategic planning, business analysis, infrastructure advisory, industrial & logistics advisory, and real estate consulting.

EXPERIENCE

Project Officer
2026 (October - Ongoing)

AMRUT Centre of Urban Planning for Capacity Building - SPA Vijayawada

Working on Leveraging a Stepwell-Based Blue-Green Infrastructure Framework for Mitigation of Heat and Water-Based Risk in Vijayapura, Karnataka, focusing on GIS-based heat and flood risk assessment, stepwell inventory and mapping, and blue-green infrastructure planning.

Architect
2026 (May - October)

Vssk Construction - Erode

- Supervised on-site construction activities, monitored work progress, and ensured compliance with architectural designs.
- Prepared architectural and working drawings, construction documentation, and statutory approval plans; coordinated with site teams to resolve construction issues.

Planning Intern
2025 (May - July)

Lea Associates South Asia Pvt.Ltd - Chennai

Contributed to the Madurai Regional Plan 2050 through economic profiling, infrastructure and institutional assessment, holding capacity analysis, RFP review, financial data integration, governance drafting, and disaster management case studies.

Junior Architect
2024 -2025 (July - July)

Designhaaus Solutions Pvt. Ltd., Hyderabad

- Contributed to three high-rise residential projects, preparing architectural designs, approval drawings, and 3D visualisations.
- Coordinated with structural, MEP, and statutory consultants to ensure design integration and smooth approval processes.

Architectural Intern - FHD India - Hyderabad
2022 (August - December)

Prepared architectural working drawings and technical drawings for residential and commercial projects. Assisted with site inspections, field measurements, and verification of construction activities against approved drawings.
