Executive Development Program on Project Management Techniques in Urban Planning

Organised by

AMRUT Centre of Urban Planning for Capacity Building, SPAV

DAY 1

Session 1: Introduction to Project Management in Planning
Session 2: Introduction to MS Project; Developing WBS and Managing Calendars

DAY 2

Session 1: Project Scheduling
Session 2: Risk and Uncertainty in Schedules

DAY 3

Session 1: Resource Management
Session 2: Costing, Budgeting and Project Crashing

DAY 4

Session 1: Project Monitoring and Control
Session 2: Communications and Stakeholder Reporting

About the Program

Urban projects involve multiple stakeholders, strict regulations, and integrated functions, demanding strategic coordination and strong oversight. Project management provides the tools needed to plan, execute, monitor, and close projects efficiently while managing risks and adapting to changing conditions.

The Executive Development Program on Project Management Techniques in Urban Planning equips planners, engineers, and policymakers with practical strategies to manage urban development projects. Through hands-on work with live coastal infrastructure projects focused on climate resilience, participants will use MS Project in SPAV's advanced labs to gain insights into resource optimization, risk management, and delivering sustainable, resilient urban solutions.

Coordinated by

Dr. Arpan Paul Singh
Principal Instructor

Ar. Vijesh Kumar
Principal Co-Instructor

Patrons

Prof. Dr. Ramesh Srikonda
Director, SPAV

Prof. Dr. Ayon K Tarafdar
Head, A-CUPCB-SPAV
